

Brand New Man: My Weight Loss Journey

Brand New Man: My Weight Loss Journey is the inspirational story of how Don McNay overcame a lifetime of morbid obesity to lose more than 110 pounds and achieve good health. McNay used the academic training, decades of experience and common sense wisdom that made him a world-renowned financial expert and devised a well-crafted weight loss plan that was implemented to perfection. Don drew upon communication skills honed as an award-winning syndicated columnist and best-selling author to tell the story in a brutally honest and riveting manner. With practical advice, exhaustive research and cultural references that range from world history to rock and roll, McNay tells a story that motivates, educates and inspires people to action. Brand New Man has been called the best book ever written by a weight loss patient, but it is more than a weight loss book. It is about using business skills and systematic planning to take on any major issue. It is a book about finding the confidence and enthusiasm to overcome obstacles. It is a book about how to assemble a dream team of advisors and draw inspiration from heroes who battled similar demons. It is a book about drawing upon dogged determination to fight back to the top. The Don McNay Reality Show sections are a candid depiction of how the 55-year-old man obtained and recovered from weight loss surgery, lost 100 pounds, started participating in 5K races and became a CrossFit devotee. It is a must read for anyone thinking about weight loss surgery. Readers of Huffington Post know that McNay challenges the privileged and powerful and his insights on the economics of obesity do just that. The section How I Got Fat (In Four Hundred Words) draws inspiration from singer Jimmy Buffett and is entertaining for Parrotheads and non-Parrotheads alike. Although documented with over 40 pages of bibliography and footnotes, Brand New

Man reads like a novel with a happy ending. McNay takes us on his journey with the gusto and enthusiasm that made his weight loss journey a success. A must read for anyone interested in the obesity epidemic -Gary Rivlin, author of Katrina: After The Flood, selected as one of 2015 most notable books by the New York Times. Don has made himself into a brand new man but retained his impressive intelligence, integrity and writing skills. -Moon Landrieu, former member of President Jimmy Carters cabinet and former Mayor of New Orleans
