

Training Technique Tactically

Today's high speed, high pressure soccer demands more of players than ever before. In this book, Coach Nicole addresses the need to incorporate tactical development and understanding into skills training. The challenge for the modern coach is how to effectively present, demonstrate and teach advanced technical training topics within a format that incorporates other facets of the game. To succeed, training must be stimulating for the players, manageable for the coach and relevant to the match. This book covers such topics as: Speed of Play, Finishing from Distance, Man to Man Defending, Combination Play, Finishing Off the Turn, Creating 1v1 Opportunities, Transition, Team Shape, Possession Play, Turning and much more.
