

Jakarta Pitfalls: Time-Saving Solutions for Struts, Ant, JUnit, and Cactus (Java Open Source Library)

Ideal intermediate-level book for programmers to turn to once they have read the introductory books. Identifies what can go wrong and provides refactored solutions for each pitfall complete with code. All of the pitfalls are cross-referenced within the text as well as outlined in a summary table in the back of the book. Includes background information and troubleshooting tips so programmers can avoid other errors that may also occur. The Web site contains all of the refactored code solutions and links to appropriate tool downloads.
