

More Time to Think: The power of independent thinking

The quality of everything we do depends on the quality of the thinking we do first. The leaders, professionals, parents and teachers who understand this are at the top of their fields and inspire some of the finest independent thinking in their environments. In *More Time to Think*, Nancy Kline shares ten effective ways to help people think for themselves with rigour, imagination, courage and grace. From learning that the mind works best in the presence of a question (so never be afraid to risk being wrong) and that a key factor in the quality of a person's thinking is how they are treated by the people with them while they are thinking, to the importance of appreciation and of facing what you have been denying, Nancy Kline shows how to create a successful Thinking Environment, whether for two people or a larger group.
