

Hope for the Journey: When Your Loved One Has Dementia

Hope for the Journey is written by an author who has watched her husband, debilitated by dementia, fade further and further away with every passing day. This book is filled with wisdom, humor, memories and most of all with hope for other caregivers embarking on the same journey. Designed in a series of brief vignettes that allow for frequent interruptions to tend to your love one, it is a book you can turn to again and again, whenever you feel alone or overwhelmed.
