

# Changes in Regional Firm Founding Activities: A Theoretical Explanation and Empirical Evidence (Routledge Studies in Global Competition)

Of interest to industrial and regional economists as well as those working in business schools, this book presents an in-depth analysis of the reasons and determinants of firm creation. The author, based at the Max Planck Institute - one of the leading centres for evolutionary economics -using a multi-disciplinary approach analyzes the topic according to a broad tripartite framework, emphasizing regional determinants industrial determinants individual determinants. An invaluable resource, this book is a useful addition to the bookshelves of experts in the field of decision making, in both the public and private domain.
