

Instrument Rating Test Prep 2010: Study and Prepare for the Instrument Rating, Instrument Flight Instructor (CFII), Instrument Ground Instructor, and ... FAA Knowledge Exams (Test Prep series)

Applicants studying for the Instrument Knowledge Exam will find answers and explanations for every question in the Federal Aviation Administration exam database in this guide. The more than 900 questions from the exam are arranged by subject category, with each section prefaced by text introducing the subject matter and accompanied by specific study material. Each question is followed by the answer, an explanation of the answer, and a Subject Matter Knowledge Code for further study in FAA materials. Meteorology, flight and navigational instruments, IFR procedures, arrivals and approaches, and review computations are among the subjects covered for the instrument rating. Updates are provided to account for FAA test-question changes throughout the publication year via the ASA website or e-mail.
