

The Power Card Strategy 2.0: Using Special Interests to Motivate Children and Youth with Autism Spectrum Disorder

The Power Card Strategy is a visual aid developed by educators and parents to assist students with Asperger Syndrome and autism in making sense of social situations, routines, the meaning of language, and the hidden curriculum that surrounds us wherever we go. What sets The Power Card Strategy apart is that it makes use of childrens special interests - to help them make sense of situations they encounter on a daily basis.
