

Water From Stones

Water From Stones is designed to serve as an instrument of healing, renewal and enlightenment for those who are seeking to walk a spiritual path. It is a book for those who are willing to take positive steps toward a more meaningful, more joyful life. The thesis of the book is this: Those events and circumstances that test our hearts and spirits can bring forth our greatest gifts. Spiritual and psychological healing comes to us as we accept and process the lessons of the desert. Water From Stones uses the story of Moses journey through the desert as the analogy for the individuals journey toward a better life. Accordingly, the book is organized into four sections: Out of Egypt, Into the Desert, Stumbling Stones and A New Land. Each section has six chapters, a poem and journaling exercises. The book is filled with true stories that illustrate the theological and psychological lessons the author sets out to teach.
