Prisrob top 100 reviewer, (T)he author has written a cute book for children about dinosaurs, the kind that eat vegetables and fruits, not meat. The illustrations depict the adventures of the boy. Upon reading the book, you will learn about many dinosaurs. I like childrens books that have a lesson to be learned. Review by Barbara Ann Mojica, Dinosaur treats. Short bedtime story about a little boy who loves plant-eating dinosaurs because he fears the carnivores who eat each other and just might want to eat him! The boy hopes these herbivores become his friends. Every night, after his mom reads a bedtime story about herbivores, he carefully unwraps the vegetable he has hidden in a napkin for them and places them on his windows He even shows his dinosaur friends how to eat them and invites them to his bed. Author Bob Strauss writes pretty much every kid

in the world goes through a dinosaur phase, when he or she eats, sleeps and breathes dinosaurs. But he knows, for a fact, that theyre no longer around. A Tyrannosaurus Rex, no matter how huge and hungry, is thus rendered completely safe. No one tells a full-grown Stegosaurus that he has to go to bed, finish his peas before he can have dessert, or take care of his baby sister. Dinosaurs represent, in kids minds, the ultimate: when they want something, they go out and get it, and nothing had better stand in their way. The reason parents dont mind when their kid pretends to be a fierce Allosaurus is that this kind of disobedience allows him to harmlessly blow off steam; its better to deal with a pesky dinosaur than a child having an ugly tantrum. Many parents know this behavior all too well. Get this charming book, **MY FAVORITES ARE THE HERBIVORES. HOW TO MAKE FRIENDS WITH A PLANT EATING DINOSAUR.** By Andy Williams now.
