

Develop Relaxation Skills Music Subliminal Cd (2012) (Self Help, Meditation Relaxation)

New Version improved with very relaxing music This Subliminal Cd is intended to help you achieve your goal using positive affirmations that are directed to your subconscious mind. Each subliminal recording targets your subconscious and contains positive reinforcement via spoken subliminal messages that are inaudible to the conscious. All you can consciously hear is the music. Our subliminal CDs are created by certified hypnotherapists using binaural beats, brain wave entrainment and neurolinguistic programming (NLP). What make this CD so special? The CD you are about to experience it is a special one: It is a subliminal persuasion recording. Subliminal means that your conscious mind will be unaware of the suggestions as they will be directed entirely to your subconscious mind. Subliminal is mixed with the gentle music to carry the suggestions directly to your subconscious mind. Consciously you will not hear the words, but your subconscious will. Because subliminal doesn't require your attention, you may find it even more effective than self hypnosis CDs. Your subconscious will accept the changes after a while, and the most important thing in subliminal messaging is that the changes will take place without conscious effort, thought or strain on your part. Sprudio Subliminal cds are unique in design and quality. Relaxation Cds can not be used while driving or operating machinery. Product Features: Music Subliminal between 50-60 minutes (2 tracks) and one track silent subliminal 10-12 minutes. No audible speech, this is not a Hypnosis CD - it is a Subliminal CD, so the spoken words are hidden by frequency (under the ocean sound). Final, silent track can be used anywhere. There are no audible sounds to be heard by your conscious mind. Affirmations printed on the CD cover.
