

Get Your Share: The Everyday Womans Guide to Striking It Rich in the Stock Market

Investing in the stock market is a way you can start securing your future now. Ill teach you how to buy and sell stocks and read technical charts as easily as you would a mail-order catalog. And well have a ball . . .Financial planner and broker Julie Stav has been helping women get rich for years through her network of investment clubs and her media and speaking appearances. Now, for the first time, she offers her hands-on techniques and inspiring advice in a program that does the seemingly impossible: it simplifies the stock market and puts a new world of wealth within reach. Todays women must be financially independent. Nine out of ten women will end up having to take care of themselves due to divorce, widowhood (women outlive men by an average of seven years), or staying single by choice. A secure financial future requires much more than simply holding on to your job. If youre already investing-or are interested in finding out how to do it-Julie Stav can make it easier than you ever imagined.
