

Together We Are One: A Trilogy on Body, Mind, and Soul (Kids Questions about Life)

Together we are one is a trilogy on body, mind and soul. It is an educational book series called Kids Questions About Life, written in simple language for parents, teachers, and kids who are pondering the deeper, more complex but yet so essential issues of life. Explaining the complexity of the human being including body, mind and soul to children can be quite challenging for parents. The book on the body Hey Buddy, I am your Body! is an early introduction on how the body works. The awareness that we are part of nature and made from the same building blocks as everything else in nature helps to understand how to take care of the body. The book on the mind Wait for me! Would you mind? explains how the mind works, its limitations and its power. The awareness that we perceive the world through our limited senses and that there is more out there than what we initially think helps broaden our horizons and open us up to a greater reality. The book on the soul The Journey of the Little Souls attempts to explain the meaning of life. The idea that we are all connected to one another, like many stars in a galaxy, many droplets of water in an ocean or many grains of sands in a desert, helps translate concepts like souls, birth, death and the Universal Soul into something more concrete. These concepts are made even more tangible and easily understandable through a family of bears. As the Teddy kids ask questions about life, Mommy Bear and Daddy Bear seek to answer their little ones with simplicity and honesty.
