

Guided by Dreams: Breast Cancer, Dreams, and Transformation

In *Guided by Dreams*, author Rachel Norment takes us on a rare journey through her own breast cancer diagnosis and treatment. With wisdom and clarity, she reveals how knowledge gained through dream interpretation guided many of her decisions during treatment and recovery, and discusses over fifty of her personal dreams. Seven drawings and paintings drawn by the author and included here in full color add a unique, visual dimension to her story and express her complex feelings and reactions to this life-transforming experience. Join Rachel as she shares how this life-threatening illness ultimately inspired her own spiritual and personal awakening.
