

Dance in the City

This exciting new and original collection locates dance within the spectrum of urban life in late modernity, through a range of theoretical perspectives. It highlights a diversity of dance forms and styles that can be witnessed in and around contemporary urban spaces: from dance halls to raves and the club striptease; from set dancing to ballroom dancing, to hip hop and swing, and to ice dance shows; from the ballet class, to fitness aerobics; and art dance which situates itself in a dynamic relation to the city.
