

## The Happy Atheist

Im an atheist swimming in a sea of superstition, surrounded by well-meaning, good people with whom I share a culture and similar concerns, and theres only one thing I can do. I have to laugh. PZ MyersOn his popular science blog,Pharyngula, PZ Myers has entertained millions of readers with his infectious love of evolutionary science and his equally infectious disdain for creationism, biblical literalism, intelligent design theory, and other products of godly illogic. This funny and fearless book collects and expands on some of his most popular writings, giving the religious fanaticism of our times the gleeful disrespect it deserves by skewering the apocalyptic fantasies, magical thinking, hypocrisies, and pseudoscientific theories advanced by religious fundamentalists of all stripes.With a healthy appreciation of the absurd, Myers not only pokes fun at the ridiculous tenets of popular religions but also highlights how the persistence of Stone Age superstitions can have dark consequences: interfering with our politics, slowing our scientific progress, and limiting freedom in our culture.Forcful and articulate, scathing and funny,The Happy Atheistis a reaffirmation of the revelatory power of humor and the truth-revealing powers of science and reason.From the Hardcover edition.
