

A Thousand Paths to Creativity (1000 Hints, Tips and Ideas)

Today, perhaps more than at any other time in history, the pressure is on us all to be more creative. This extends into our private lives, the design of our homes and interiors, our methods of painting, the way we look and dress, how we handle our finances and market ourselves, right down to what's in our garden and what we serve at the dining table. But rest assured, the creativity we seek, the creativity that is needed, is within us all and there for the taking. Whether an individual, a small business, or a global enterprise, the rules and philosophy of creativity are the same. Within these pages are a thousand little motivational keys with which to wind your creative mechanism and get things running as smoothly as clockwork. Wow yourself, and wow the world, with your creativity.
